THE Subscriber respectfully intimates, that he continues to take charge of enrolling PARLIAMENTARY and MUNICIPAL VOTERS for the CITY OF GLASGOW.

He has further to intimate, that with the view of extending the benefit of the INDEPENDENT system of REGISTRATION, which he has so long and so successfully carried on in Glasgow, he has made arrangements for taking charge of claims of parties entitled to be Registered as Voters within the

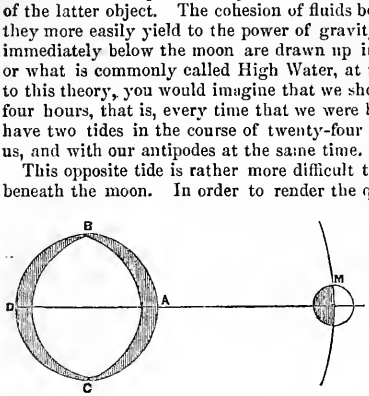
ALMANAC AND TIDE TABLE.

FROM JUNE, 1853, TILL JUNE, 1854.

The daily rising and falling of the waters of the ocean are, in general, denominated Tides. The rising is called the Flood, or Flux; and when it ceases to rise, High Water. The falling is called the Ebb, or Reflux; and when it ceases to fall, it is said to be Low Water. The interval between the times of High and Low Water is called a Tide.

The Tides are produced by the attraction of the sun and moon, principally that of the latter object. The cohesion of fluids being much less than that of solid bodies, they more easily yield to the power of gravity; in consequence of which the waters immediately below the moon are drawn up in a protuberance, producing a full tide, or what is commonly called High Water, at the spot where it happens. According to this theory, you would imagine that we should have full tide only once in twenty-four hours, that is, every time that we were below the moon; while we find that we have two tides in the course of twenty-four hours, and that it is High Water with us, and with our antipodes at the same time.

This opposite tide is rather more difficult to explain than that which is drawn up beneath the moon. In order to render the question more simple, let us suppose the earth to be everywhere covered by the ocean, as in the following figure.



M is the moon, A B C D the earth. Now, the waters on the surface of the earth about A being more attracted than in any other part, will be elevated, the attraction of the moon at B and C being less; but still it will be greater there than at D, which is the part most distant from the moon.

The body of the earth will therefore be drawn away from the waters at D, leaving a protuberance similar to that at A: so that the tide, A, is produced by the waters receding from the earth, and the tide, D, by the earth receding from the waters.

The influence of the sun on the tides is less than that of the moon; for, observe, that the tides rise in consequence of the moon attracting one part of the waters more forcibly than another part. It is this inequality of attraction which produces full and ebb tides. Now, the distance of the sun is so great, that the whole globe of the earth is comparatively but as a point; and the difference of its attraction for that part of the waters most under its influence, and that part least subject to it, is but trifling. No part of the waters will be much elevated above, or much depressed below, their general surface by its action. The sun has, however, a considerable effect on the tides; and increases or diminishes them as it acts in conjunction with, or in opposition to, the moon.

According to the calculations of the celebrated La Place, in his *Mécanique Celeste*, the mean force of the sun in raising the tides is to the mean force of the moon as 1 to $1\frac{1}{2}$; and Emerson, in page 423, second edition of his *Treatise on Fluxions*, calculates the height of the solar tide to be 1·63 feet, and the height by the moon's influence to be 7·28 feet; consequently, the height of their joint force to be 8·91 feet. The height here calculated is supposed to be at such places where the sun and moon are vertical, and also in the equinoctial. In places at a distance from the equator, the height will be less as the latitude is greater. Further, their height will also be less according to the sun and moon's declination from the equator.

From what has already been remarked regarding the tides, it is obvious that, when the moon is in Perigee, or at her nearest distance from the earth, she attracts strongest, and therefore raises the tides most. The contrary happens when she is in Apogee, or at her greatest distance from the earth, because of her weaker attraction. At new moon, when she is in conjunction with the sun, and at full moon, when they are in opposition, the tides are raised by the joint attraction of both luminaries, and therefore will produce the highest, or what are called Spring Tides. And Neap Tides are produced by the difference of their force when in quadrature. The Spring

Tides take place about two days after full moon, and the Neap Tides about two days after the first and last quarter.

In consequence of the sun being nearer the earth at the beginning of the year than at any other time, his attraction will then be most powerful on the tides, and, should the moon happen to be in Perigee, their joint effects will produce the greatest Spring Tides.

The mean duration of the ebb and flow is about 12 H. 25 M., that is, half the lunar day of 24 H. 50 M., the period elapsing between successive returns of the moon to the same point of the meridian. Thus the sea in every place undergoes a flux and reflux as often as the moon passes the meridian, whether superior or inferior of the place; that is to say, twice in 24 H. 50 M.

The following Tide Table is constructed on strict scientific principles, from the very accurate Tide Tables of J. W. Lublock, Esq., London (the Tide Table in the *Nautical Almanac* for 1853 is also calculated from the same Tables), and will be found to be as correct as the position of our river, with regard to its locality, the influence of the winds, and other diversified circumstances, either hasten or retard its natural current. Hence the time of the Tide by observation may not at all times correspond precisely with the time found in the Table.

These Tables are calculated for mean time, or the time shown by a well-regulated clock, reckoning from noon of each day. The Moon's Phases are calculated to civil time. The civil day begins at midnight.

TIDE TABLE OF SOME OF THE PRINCIPAL PORTS IN ENGLAND, SCOTLAND, AND IRELAND.

The times of High Water at full and change of the moon, from which the following equations are calculated, are reckoned from apparent noon. They represent the actual times of High Water when the moon passes the meridian at the same time as the sun, or the intervals between the times of transit of the moon and the times of High Water on full and change days. With which, and the equation of time, the times of High Water at all the Ports here given will be obtained, by addition, as here annexed.

EXEMPLIFICATION AND CONSTRUCTION OF THE PRECEDING TABLES.

TO FIND THE TIME OF HIGH WATER AT ANY PLACE IN THE GENERAL TIDE TABLE.

RULE.—To the time of high water at Glasgow on the given day, add or subtract the correction for the required place as stated in the table, and the time of high water will be obtained. When the sum of the correction and of the time of high water in the table exceeds 12 hours, subtract 12 hours, and the remainder will be the time of high water in the morning or evening of the given day, as the column denotes; when the sum of the former quantities is less than 12 hours, this sum will be the time of high water required in the evening of the preceding day, or the morning of the given day, according as the column is marked morning or evening. Or the morning and the evening tides may be found thus:—If the morning tide be sought, and the sum be above 12 hours, take the time from Glasgow for the preceding evening, to which add the correction for the required place, from the sum subtract 12 hours, and the remainder is the morning tide at the place required. If the evening tide is wanted, and the sum exceed 12 hours, take the Glasgow morning tide for the given day, to which apply the correction for the required place, from the sum subtract 12 hours, and the remainder is the evening tide at the place required.

July 20, 1853, the sun's longitude was 62° 25′, and the obliquity of the ecliptic 23° 28′. Required the sun's declination at noon.

To the log. sine of sun's longitude at noon, 62° 25′,		9.947571
Add the log. sine of obliquity of ecliptic,...		9.600118
The sum (rejecting 10° from the indices) is the sine of the sun's declination,.....	20° 40′ =	9.547689

Required the time of the sun's rising and setting at Glasgow, in latitude 55° 52′ N., longitude 4° 16′ W., on May 20, 1854.

The approximate time of the sun's rising and setting is—

	Rising, 3 h. 50 m.	Setting, 8 h. 10 m.
Longitude of time in Glasgow,.....	+ 17	+ 17
	4 7	8 27

The sun's declination reduced to these times is 19° 54′ and 20° 3′, and the polar distances are 70° 6′ and 69° 57′. The horizontal refraction, less sun's parallax, is 34′ 17—9″ = 34′ 8″ + 90 = 90° 34′ 8″, and hence the following computation:—

NOTE.—The latitude of Glasgow is 55° 52′ north, the longitude 4° 16′ west of Greenwich; consequently there are 17 minutes of difference of time between the clocks of Greenwich and the clocks at Glasgow, the Greenwich time being earlier. The clocks of the United Kingdom are now generally adjusted to Greenwich time.

POSTAGE STAMPS, &c.

As the system of paying Inland Letters has been done away with, the public must use Postage Stamps.

Stamps may be procured at the General Office, Glassford Street, the Stamp-Office, and the several Receiving-Houses.

The Penny Labels.....at 1d. each.
The Twopenny Labels,.....at 2d. ,,
The Tenpenny Labels,.....at 10d. ,,
The Shilling Labels,.....at 1s. ,,
The Penny Envelopes,.....24 for 2s. 3d., or 2 for 2½d.

When the value of Stamps on a Letter is less than the amount of the postage to which it is liable, the Letter will be charged double the amount of such difference on delivery.

Stamps may be used for *Printed Votes* and *Proceedings in Parliament*, and on Foreign, Colonial, and Ship Letters, *outwards*. Letters for *parts abroad* posted *with Stamps of less value than the full amount of Postage*, if addressed to places to which prepayment is not compulsory, will be forwarded, charged with only such amount of Postage as shall *be equal to the difference between the value of the Stamps and the proper rate of Postage;* but letters addressed to *places abroad*, to which prepayment *is compulsory*, if posted with Stamps of less value than the full amount of Postage, will be sent to the Dead-Letter Office, to be returned, in all practicable cases, to the writer. Stamps are not permitted to be used on Letters arriving in the United Kingdom *from the Colonies or Foreign Countries*.

These Regulations are applicable to Newspapers, in those cases where they are liable to Postage.

If the Stamps affixed to letters are mutilated or defaced, the letters will be liable to the unpaid rate.

A Stamp which has been cut from an envelope and affixed to a letter, entitles it to pass free of charge.

Redirected Letters are charged an additional postage for each redirection, according to the Prepaid Scale.

Letters to Warm Climates should be sealed with wafers, as wax destroys the letters by melting, causing them to adhere to one another.

No Letter, when once posted, can be given up to any but the person to whom it is addressed, neither is any person allowed to alter the address of a letter after being posted.

Adhesive Stamps should be placed on the right-hand corner of the upper side of the letters, above the superscription. The most effectual plan is to dip the label wholly in water, to shake off the water immediately, and to press the label upon the letter with a piece of clean blotting paper. *When the gum is dull in appearance, it will require rather more time and moisture to make it stick firmly, than when it is glossy.* The purpose of wetting the label *wholly*, is to counteract the tendency it has to curl up from the letter, when one side only is wetted, a tendency caused by the expansion of that side as it imbibes the moisture.

PREPAID RATES OF POSTAGE.

Letters *not exceeding Half an Ounce* in weight, 1d.; *One Ounce*, 2d.; *Two Ounces*, 4d.; *Three Ounces*, 6d., and so on, *two* rates being added for *every ounce*. Inland Letters or Packets put *unpaid* into the letter boxes, are charged *double* the prepaid rates of postage. Letters having an insufficient amount of stamps affixed, are charged with *double* the amount *of the difference between the stamps affixed* and the *prepaid* rates.

LIMITATION OF WEIGHT.

A letter to pass *unpaid* by the post must not exceed *Four Ounces*. In the event of any *unpaid* letter above the weight of four ounces being posted, it will be charged with *double* the *prepaid* rates of postage; if *insufficiently paid*, it will be charged with *double* the amount of *the difference between the stamps affixed* and the prepaid rates, and *thus charged*, "shall and may be *detained* and *opened*, and, at the *option of the Postmaster-General*, shall be either returned or given up to the *sender* thereof, or be given up to the person to whom it shall be addressed, or be forwarded to the place of its destination."—*Treasury Warrant*, 22d October, 1847.

LIMITATION OF SIZE.

A letter to pass by the post, either *paid* or *unpaid*, must not exceed the dimensions of *twenty-four inches* in length, or breadth, or width, or depth. Any letter above these dimensions may, if *fully paid*, be *detained* and *opened*, or forwarded at the *option of the Postmaster-General*. Any letter *unpaid*, or *insufficiently*, will be taxed precisely after the scale of charge mentioned in the preceding paragraph, as applicable to unpaid letters exceeding four ounces weight, and *thus charged*, be either *detained* and *opened*, and returned to the *sender*, or forwarded, at the *option of the Postmaster-General*. The only *exceptions* to the foregoing regulations as to size and weight are in the case of—1. Parliamentary proceedings or Addresses to Her Majesty. 2. Petitions to either Houses of Parliament, forwarded to any Member of such House. 3. Printed votes or proceedings of Parliament. 4. Letters or packets to or from public departments or public offices in Her Majesty's service. 5. Letters, &c., to or from places abroad.

All persons sending letters by the post *unpaid*, which, from any cause whatever, cannot be delivered to the parties to whom they are addressed, are liable to pay the postage charged thereon, which may be recovered, with costs, by summary proceedings before a Magistrate.

Printed votes and proceedings in Parliament are charged at the following rate, between places in the United Kingdom, and between the United Kingdom and the Colonies, when conveyed by packet:—

Not exceeding 4 ounces,	1d.
Exceeding 4 ounces, and not exceeding 8 ounces,	2d.
Exceeding 8 ounces, and not exceeding 12 ounces,	3d.

And so on in proportion. Prepayment optional.

SERVICE OF PARLIAMENTARY NOTICES.—These notices may be sent through the Post, provided they are posted on or before the 12th December, at the chief offices of London, Dublin, and Edinburgh, or any of the following offices:—Birmingham, Bristol, Exeter, Lincoln, Liverpool, Leeds, Manchester, Newcastle-upon-Tyne, Norwich, Shrewsbury, Glasgow, Aberdeen, Inverness, Belfast, Cork, and Athlone. The words, "Parliamentary Notice," must be legibly printed on the face of the letter,

the postage must be prepaid by means of Stamps, and a Registration Fee of 6d. at the time of posting, which may be known by applying to the above offices. Duplicate Lists of the Addresses must be sent with the Notices, which must be arranged in the same order as entered on the Lists.

NON-COMMISSIONED OFFICERS, SEAMEN, AND SOLDIERS IN HER MAJESTY'S SERVICE ABROAD.

Letters to seamen and soldiers may be forwarded by post at the rate of one penny each, under the following regulations:—

1st, The penny must be paid at the time the letter is put into the Post-Office.
2d, The direction must signify the class of seaman or soldier.
3d, The name of the ship, regiment, or corps, to which he belongs.
4th, The letter must not exceed half an ounce, and be upon their private concerns only.

Letters for seamen and soldiers, whether in her Majesty's or the East India Company's military or naval service (while on actual service), may be forwarded, under the foregoing regulations, to India, China, &c., *via* Southampton. They can now be sent to India, *via* Marseilles, on payment of the British rate of 1d., besides the French rate of 5d., if under a quarter of an ounce, or 10d. exceeding that weight, or to any foreign country, on payment of the foreign rate of postage in addition to the British rate of 1d. as above.

Letters for seamen and soldiers forwarded by private ships (with the following exceptions:—St. Helena, East Indies, New South Wales, Cape of Good Hope, and Mauritius) are charged 3d. each.

Letters of soldiers and seamen, addressed to the United States of America, will in future be chargeable with the American rate of five cents, or twopence-halfpenny sterling each, in addition to the ordinary British rate of one penny; the postage of all such letters must be prepaid.

Warrant officers, either in the army or navy, or masters' mates, or engineers of the navy, are not entitled to transmit letters at less than the usual rates of postage.

Seamen's or soldiers' letters received from any part beyond sea, upon which the said penny has not been prepaid, shall be charged to the receiver with double the rate—viz., 2d. each.

REDIRECTED LETTERS FOR OFFICERS, SOLDIERS, AND SEAMEN.

Letters redirected to commissioned officers in the army or navy, subject to foreign or colonial postage, may be forwarded to such officers when removed upon service (whether at home or abroad), and be delivered to them for the same amount of postage that would have been chargeable had they been delivered at their original address. In all other cases they are subject to the same regulation as ordinary redirected letters. Soldiers' and seamen's letters are not liable to any additional rate upon redirection.

"GENERAL POST-OFFICE.—On and after 1st January, 1845, should any Letter or Packet be tendered at your Office, which you may ascertain to contain, *or which you have every reason to believe* contains, any of the following articles, viz.:—Any *Glass*, or *Glass Bottle;* any *Razor, Scissors, Knife, Fork*, or other *Sharp* or *Pointed Instrument;* any *Leeches, Game, Fish, Flesh, Fruit, Vegetables*, or other *perishable substance;* any *Bladder*, or other *Vessel containing Liquid;* or any *article, matter*, or *thing whatsoever, which might, by pressure or otherwise*, be rendered injurious either to the Officers of the Post-Office, or to the contents of the Mail Bags; *you will refuse to receive such Letter or Packet.*

"In the event of any Letter or Packet being taken in by you, and you do not, until *afterwards*, discover that it contains any article as above described, or should any such Letter or Packet be deposited in the Letter Box, *you will not forward it on its destination, but you will detain it in your Office*, and inform me by the *first Post* of the circumstances, stating the precise address of the Letter or Packet, and its contents, or what you suppose them to be, when proper steps will be taken in this Department in the case, and you will be instructed in what manner to dispose of the Letter or Packet.

"Should any Letter or Packet, containing any article as before-mentioned, not be discovered *by the Postmaster at whose office it may be posted*, but be forwarded on to its destination, the *Receiving Postmaster*, to whose town it may be addressed, upon discovering, *or having every reason to believe*, that its contents are such as those alluded to, *will not send it out for delivery, but will detain it in his office*, reporting the circumstance *by the first Post*, and stating the nature of its contents, when he will be duly instructed in what manner to dispose of it."

NEWSPAPERS AND SUPPLEMENTS TO NEWSPAPERS.

All newspapers must be sent in covers, open at the sides, and no words or communication may be printed or written on such papers or covers, after the same shall have

been published, other than the name and address of the person to whom they are sent; nor anything enclosed or concealed in either newspaper or cover. Newsvenders *only* may *print* their names and addresses thereon. Newspapers may be examined by the Officers of the Post-Office; and if there be any breach of the above regulations, the packet is chargeable with treble the amount of postage to which a letter of the same weight would have been liable. Any person contravening the law, may, at the option of the Postmaster-General, be prosecuted as for a misdemeanour.

Clause of the Act of 1st Victoria, cap. 34, sec. 32.

"And be it further enacted, that in all cases in which a question shall arise, whether a printed paper is entitled to the privileges of a Newspaper, or other publication, hereby privileged, so far as respects the transmission thereof by the Post, under the Post-Office Acts, the question shall be referred to the determination of the Postmaster-General, whose decision, with the concurrence of the Lords of the Treasury, shall be final."

MARKS OR WRITING ON NEWSPAPERS.

Writing or marks are allowed on a *Newspaper* passing by Post between *any one part of the United Kingdom, and any other part*, provided that a postage of one penny be paid, by means of a stamp conspicuously fixed outside the cover or folded Newspaper. But the privilege is confined to writing or marks on the *Newspaper itself*, and is not to extend to the cover. Any writing or marks other than the address on which, or (if the Postage be not prepaid as above) on the Newspaper itself, will subject the Newspaper to the same rate of Postage as that to which an unpaid letter of the same weight is liable.

Newspapers Posted in Town, addressed to any part within the town delivery, charged, paid or unpaid, 1d.

Newspapers printed or published in any of the Channel Islands, or in the Isle of Man, and sent by the Post between any of such Islands and Great Britain or Ireland, or sent by the Post in Great Britain or Ireland, will be liable to the full letter rates of Postage, according to the scale for charging Inland letters, with the exception of such as are printed in the *French Language*.

NEWSPAPERS FROM THE BRITISH COLONIES

are delivered free of Postage at any place within the British dominions. Those for persons who have removed, may be forwarded by Post, free of charge, provided they have not been opened at the place to which they were originally addressed.

THE BRITISH COLONIES AND FOREIGN PARTS.

Newspapers liable to the Stamp Duty may be forwarded to the British Colonies and Possessions, by her Majesty's packet-boats, free of the duty of postage, provided the same be duly stamped, made up open at the ends, and put into any Post-Office *within seven days* after the day of publication.

Newspapers may also be forwarded to the Colonies, by private ships, for a postage of One Penny each, and to Foreign Countries for a postage of Twopence each, to be paid when posted, *under the same regulations as to date, &c.*

For days of despatch and Rates of Postage, see the Alphabetical List of Foreign Countries, commencing at page 30.

NEWSPAPERS FROM ABROAD.

Newspapers arriving from British Colonies or "Foreign Parts," to which they are despatched free, are delivered free of postage. From places abroad, to which they are *not* despatched free, they are charged on delivery, *Twopence* each; excepting those brought by the closed mail through France, which are charged *Threepence*, or *Fivepence* each. *All newspapers must be printed in the language of the country from which they are sent*

PRINTED PRICES CURRENT, having obtained the sanction of the Lords of the Treasury, pass through the Post-Office to the *Colonies* and *Foreign parts* at One Penny each, provided they contain simply the names and prices of articles; the names and addresses of the parties dealing in such articles must be excluded. Each copy to be made up in the same form as a Newspaper, with covers open at the end.

The title of the publication must be written, or printed, immediately above the address; and any other writing than such address, name, initial, or mark for reference

of any kind, calculated to convey information as to the party by whom such publication is forwarded, will subject the same to full letter rates of postage.

Every Price Current to be posted within *seven* days after each publication; and no one can be forwarded a *second* time without being charged with full letter postage.

All other PRICES CURRENT, AND COMMERCIAL LISTS, published in the United Kingdom, *if duly stamped, and under the weight of two ounces*, will be treated as Newspapers, and enjoy the Newspaper privileges, *the sanction of the Postmaster-General having been previously obtained.*

PRINTED PRICES CURRENT, AND COMMERCIAL LISTS, from the British Colonies, France, Belgium, and Holland, are now admitted into the United Kingdom at the reduced rate of 1d. each, whether conveyed by Packet or by Private Ship.

PRINTED PRICES CURRENT, AND COMMERCIAL LISTS, from any foreign country, except France, Belgium, Holland, Prussia, and China, are admitted into the United Kingdom at the reduced rate of 2d. each.

PRICES CURRENT, AND COMMERCIAL LISTS, *from* the British Colonies, *passing through* the United Kingdom, are liable to a Postage of 2d. each, to be paid at the time of being Posted.

PRICES CURRENT, AND COMMERCIAL LISTS, from the British Colonies, passing through France, Belgium, or Holland, to the United Kingdom, are liable to a Postage of 2d. each.

PRINTED PRICES CURRENT, AND COMMERCIAL LISTS, to China, *via* Southampton, 2d. each; *via* Marseilles, 3d. each. From China, *via* Southampton, 3d. each; *via* Marseilles, 5d. each.

REGISTRATION.

Letters, whether containing Coin or not, can be registered, on payment of a fee of 6d., *in addition to the rates of Postage*, Inland, Colonial, or Foreign. On those for delivery in France, the Charges, besides the Registration Fee, will be the English rate to France, in addition to double the French rate. On those to Prussia, or passing through Prussia, the Prussian Registration fee of 3d. must be paid, in addition to the British. On those to Russia and Poland, *via* Belgium, an additional rate of 3½d. under ½ oz., 7d. under 1 oz. &c. Thus, for a letter not exceeding ½ oz., the charge will be ordinary postage, 11½d.; additional postage, 3½d.; British Registration fee, 6d.; Prussian do, 3d.; total, 2s. A printed acknowledgment will be given to any person registering a letter. Registered letters will be taken *at the Bar Window and the Receiving-Houses within half-an-hour of the closing of the Box for the particular Mail* by which they are to be despatched. Letters for Registration addressed to places *within the United Kingdom*, must be paid by affixing a sufficient number of Stamps, and the Registration fee must be paid in Stamps; when addressed to *parts abroad*, they may be paid either in money, or by means of Postage Stamps.

In case of Foreign, Colonial, or Ship Letters, it must be clearly understood that Registration can only extend to the port of shipment. Letters, however, addressed to France, and Letters passing through France, are exceptions to this rule, the French Post-Office undertaking to provide for their security till they shall have been delivered, *if addressed to France*, and as long as they remain in the French territory, *if passing through France.*

The arrangements for carrying out the system of registration have been made with the view of insuring the safe delivery of Registered Letters. On their delivery, the parties to whom they may have been addressed will be required to acknowledge, in writing, their receipt. *Parties transmitting Bank Notes, Bank Post Bills, Drafts, Jewellery, &c., should invariably secure their transmission by Registration;* and persons having occasion to send by Post *small sums*, are recommended to make use of

THE MONEY ORDER OFFICE,

which is open *every week-day*, fast-days excepted, from 9 a.m. till 5 p.m. The charge for such Orders is 3d. on sums not exceeding *two pounds*, and 6d. on sums between *two* and *five pounds*. No Order will be given for sums beyond this amount; but if the sum to be transmitted exceeds *five pounds*, as many orders may be taken out as will make up the sum to be sent.

In cases where the personal attendance of the party to whom an order is payable is inconvenient, if the order is receipted (his or her name written in full) and the

person presenting the order be able to give full information as to the Christian name, surname, address, and occupation of the person who transmitted the money, payment will be made, but not unless these conditions are complied with. Orders will not be granted in favour of any person, unless the Christian name of such person can be given by the party obtaining the order. Orders cannot now be granted in favour of the "Secretary" of any Society, the "Publisher" of a paper, &c. In cases of *Firms* the initials only are required.

A Money Order must be presented for payment before the end of the Second Calendar Month after that in which it was issued, (for instance, if issued in January, it must be presented before the end of March,) otherwise a new order will be necessary, for which a second commission must be paid; and if it be not presented for payment before the end of the Twelfth Calendar Month after which it was issued, the money will not be paid at all.

After an order has been once paid, by whomsoever presented, the office will not be liable to any further claim.

The towns upon which Money Orders can be drawn are marked in the lists.

In case of the debtor removing to a different county, the decree may be enforced against him there, on being endorsed by the Sheriff-Clerk of the county to which he removes. FORM OF PROCEEDING IN THE RECOVERY OF SMALL DEBTS.

Debts may be recovered in a summary manner before the Justice of Peace Court, to the extent of £5; and before the Sheriff Courts, to the extent of £8. 6s. 8d.

The first step is set forth in a complaint or libel, agreeably to a prescribed form, (the Clerks of Court will provide the necessary forms,) the origin of the debt, or ground of action; and to cause the same, with a copy of the account, if any, to be served on the defender.

A warrant will, at the same time, be obtained to cite witnesses.

The parties may appear either by themselves or by members of their families, or others whom the Court may authorise; but in no case by persons practising the profession of the law, without special leave of the Court on cause shown.

If the defender fail to appear, after being cited, he will be held as confessed, and judgment will be given against him.

But, when decree is given in absence against the defender, he may, before the expiry of the charge, apply for a rehearing, on consigning the sums decerned for.

If decree in absence be given against the pursuer, he may, within one month, obtain a rehearing, on consigning 2s. 6d., if the case be before the Justices; and the expense decerned for, with 5s. to meet further expenses, if the case be before the Sheriff.

The case will be adjourned upon the pursuer or defender offering a suitable excuse, or if any witness be absent.

If decree be given against the defender in his personal presence, diligence may proceed against him by arrestment instantly; and by poinding and sale, at the end of ten days, before the Sheriff; and poinding and sale instantly, before the Justices.

If decree be given against the defender in his absence, poinding and sale, as above, can only follow after a charge of ten days.

The defender, on showing cause, may be allowed to pay the sums decerned for by instalments.

The decrees of the Sheriff and of the Justices may be executed in any county, on the same being indorsed by the Clerk of such county.

Any arrestment used in cases before the Sheriff must be used within sixty days after the warrant is obtained, and renewed every three months; and such arrestments may be loosed, on offering sufficient caution, or on showing evidence of absolvitur, or payment, or on consigning the sums demanded, if before decree.

The above forms will apply to any action of forthcoming whatever, before the Sheriff, for making effectual arrestments; but in such actions, both the defender and arrestee must be cited to appear in Court on the same day.

Decrees, pronounced in this summary form by the Sheriff, will only be reviewable by the next Circuit Court of Justiciary; or, if there be no Circuit Court, by the High

Court of Justiciary at Edinburgh, on the ground of corruption, or malice, or oppression on the part of the Judge.

Such decrees, when pronounced by the Justices, will only be reviewable, by a reduction before the Court of Session, on the ground of malice and oppression, on the part of the Justices; and such reduction will only be competent for one year, and finding caution for costs.

No person should be exempted from the jurisdiction of Justices or Sheriffs, in such cases, by reason of privilege as a member of the College of Justice.

WESTERN TRAINING ACADEMY,

THISTLE STREET, SAUCHIEHALL ROAD.

THIS INSTITUTION was established in 1848 for the purpose of Educating the CHILDREN of the WEALTHY CLASS on that system of Bible, Moral, and Intellectual Training, which has been so successfully carried out in the NORMAL SEMINARY, and so extensively adopted throughout England and the Colonies.

RECTOR.....JAMES LONG, M.A.

LADY SUPERINTENDENT.....MRS. RUTHERFORD.

PUBLIC CLASSES.

These consist of the following departments:—

INITIATORY.

For Pupils (Boys and Girls) from Three to about Seven Years of Age.

JAMES BAILEY, MASTER, (from the Normal Seminary.)

JUVENILE.

Junior Division for Pupils (Boys and Girls) from Seven to about Ten Years of Age.
Senior Division for Pupils (Boys and Girls) from Ten to about Fourteen Years of Age.

JAMES LONG, M.A., MASTER, (from the Normal Seminary.)

WRITING AND ARITHMETIC.

Divisions as in the *Juvenile Department.*

JOHN LAIDLAW, MASTER, (from the Normal Seminary.)

CHARLES FRAZER, ASSISTANT.
MISS ANDERSON, ATTENDANT ON THE YOUNG LADIES.

By these arrangements, it will be observed, there is a *uniformity of system* secured which must greatly facilitate the progress of the Pupils. The Lessons are also in every case carefully adapted to their capacity. The Children in the *Initiatory* are never confined to their Classes for more than an hour at a time; and Oral Gallery Training Lessons are in part substituted for those from books at each stage of the course. The Pupils are thus relieved to a great extent from burthensome lessons at home, and are left more at liberty to enjoy the society of their Parents and of the Family; and the Trainers are enabled at the same time to impart a greater amount of general knowledge, and to communicate it in a more interesting and instructive manner. The great object of the system is not only to develop and strengthen the Physical, Intellectual, and Moral Powers of the Young, but to carry out Family and Social Training, by making School, as far as possible, part of the Home of the Children.

Mid-day play-hour from Twelve till One o'clock, during which time the Pupils take Luncheon together; and play under the superintendence of the Teachers, with a view to the more efficient carrying out of their Physical and Moral Training.

Founded in 1791 by the late Walter Stirling, merchant in Glasgow, who bequeathed his own collection of books, and certain other property, to found and endow a Public Library, to be open, free of charge, to the inhabitants of Glasgow.

On the first institution of this Library, life subscribers only were admitted to the privilege of taking out any of the books; but in the year 1848, the directors, with a view of making the Library more generally useful, agreed to admit also annual subscribers, who enjoy the same advantages as the life subscribers.

The library of Mr. Stirling, which formed the nucleus of this collection, consisted of from 600 to 700 volumes, and, besides the books purchased by the directors, the Library has received many valuable additions from various donors, among whom may be particularly mentioned the late William Jamieson, jun., and James Bogle, Esquires.—The number of volumes in the Library is now about 12,000.

In order to prevent, as much as possible, chimneys taking fire, the magistrates recommend to the inhabitants to get their chimneys swept every six weeks, and not to employ or admit to their houses, or to the roof thereof, any chimney-sweeper not having a badge, or who refuses to produce the same when demanded. The magistrates also recommend to the inhabitants to keep the hatchway, or other access to the roof of their houses, properly secured; and not to intrust the key to any chimney-sweeper who has not a badge, in order to prevent theft and destruction to property.

BILLETING SOLDIERS.

Soldiers on the recruiting service, &c., are billeted on the houses of the inhabitants, in regular rotation, with the following exceptions, viz., Parish-ministers and Schoolmasters, Faculty of Physicians and Surgeons, Faculty of Procurators, Widows, and Unmarried Ladies not in business, and who do not keep Lodgers, and Paupers.

Occupiers of houses at £3 and under £5 yearly rent, two men for any number of days under a week; at £5 and upwards, two men for two weeks, or the remainder of the month, which may happen to be seventeen days.

Any person refusing the billet is subject to a penalty of Five Pounds.

When inconvenient to furnish the soldier with a bed, it is customary to pay a private 3d. for each night, and a serjeant, 4d.

On the 4th, 5th, and 6th of the month, after the billet has expired, a penny for each day for each man will be repaid, by presenting it to the Quarter-Master, 5 Great Hamilton Street. Attendance from 11 till 2 o'clock.

EXTRACT FROM J. H. HARTNOLL'S LETTER TO THE PRESIDENT OF THE BOARD OF TRADE.

"The success of the ROYAL INSURANCE COMPANY has been very remarkable. It was shown in the *Post Magazine* of the 25th August, 1848, as the Returns themselves will now serve to exhibit, that the profits on the business of the office for the preceding four

years, had amounted to the enormous sum of £108,641; 'affording a disposable surplus of £100,000, after payment of all charges for management, and apportioning five per cent. as a dividend on the previously paid-up capital.' The Directors very wisely recommended that, instead of withdrawing this sum, for the purpose of distributing it among the proprietors in the form of cash bonus, the sum of £89,280 should be taken from the accumulated fund, and added to the permanent paid-up capital of £178,560, which was thus raised to £267,840. I fear that the comments which have been made, from time to time, in the *Post Magazine* on the success of the *Royal Insurance Company*, have had the mischievous effect of creating a desire in many of the new *Life* Offices to 'to try their luck' in the *Fire* line. Several engraftments of the kind have already been made, others are announced, and more are privately talked of. The results that are exhibited in most of the preceding summaries of accounts are not, however, very encouraging for such experiments. It is as hazardous to enter upon a '*Little* Fire Insurance Business,' as the good old Duke used to say it was to enter upon a '*Little* war.'"

LIFE ASSURANCE.

The great extension of trade and commerce, and the benefits found to have been derived from Life Assurance Societies, sufficiently account for the increasing interest the subject has attracted from all classes of society of late years, and have necessarily enforced a liberal adaptation of its principles to meet more enlightened and comprehensive views on the subject, and to facilitate accommodations intimately and legitimately connected with Life contingencies. The "Legal and Commercial Society" possesses, in a peculiar degree, all the elements required to develop the benefits of Life Assurance, and to extend its advantages to Assurers, and every practicable accommodation that can be honourably and safely carried out by Assurance Companies, is afforded to Assurers in this Office.

ADVANTAGES OFFERED TO ASSURERS BY THIS SOCIETY.

THE GUARANTEE OF AN AMPLE SUBSCRIBED CAPITAL, careful selection of lives, and economical management.

PARTICIPATION IN PROFITS—*Four-fifths (or Eighty per cent.)* of the profits divided every five years in the Participating Branch; which the Assurer may apply, either to reduce the subsequent payments on his policy, or to increase the amount payable at his death.

The Bonus declared to 31st December, 1850, *was equal to* THIRTY-FIVE PER CENT. *on the Premiums paid, to be added to the sum assured, or applied in reduction of future Premiums, at the option of the assured, of which the following are examples for Policies which had then been in force five years:—*

Age at Commencement.	Sum Assured.	Annual Premium.	Bonus.	Reduction of Premium for the five years ending Dec. 1855.
	£	£ s. d.	£ s. d.	£ s. d.
30	2,000	47 13 4	83 6 0	7 7 0
36	1,200	34 4 0	59 17 0	5 14 0
40	1,500	48 16 3	81 18 0	8 10 0
44	1,000	37 13 4	65 18 0	7 7 0
51	1,500	71 12 6	126 6 0	16 8 0
56	3,000	177 12 6	310 16 0	45 6 0

NEXT BONUS.

Whole Term Assurances, effected before the 31st December, 1853, will be entitled to participate in the next Division of Profits, in 1855.

MANAGEMENT UNDER THE CONTROL OF ASSURED.—Assurers for £999 and upwards, are entitled to attend and vote at all the General Meetings.

THE TABLES OF PREMIUM combine economy with safety, and the Rates, compared with those usually charged, give Assurers with this Society the benefit of a reduction equivalent to a large bonus.

CONVENIENCE OF THE ASSURED CONSULTED.—Premiums may be paid either annually, half-yearly, or quarterly, or by any practical mode the Assurer may select. Credit will be given, if required, for half the premiums, for the first five years.

PROMPT PAYMENT OF LOSSES.—Claims paid, if required, immediately after proof of death.

Remuneration given to Medical Referees for their Reports.

FIRE ASSURANCES.

It is a principle to exclude all extremely hazardous risks.

The Society is, therefore, enabled to offer the advantage of lower premiums than are now charged by other offices upon various important risks.

The Tables of Rates have been formed, after much consideration, upon safe and economical principles.

A separate account is kept for each class of Assurance, which will enable the Directors to observe correctly the actual losses, as compared with the premiums received on each risk, and to ascertain, from time to time, the minimum premiums that may with safety be imposed.

One of the distinguishing regulations is, to relax the stringent terms which have recently been imposed upon Warehousemen and others holding large premises.

Assurances may be extended to cover the risk of *explosion*, by the payment of a small extra premium.

Assurances continued for six years will be allowed a reduction of 50 per. cent. on the seventh year's premium.

Assurances paid in advance for seven years, will be charged six year's premium and duty.

No charge made for policies transferred from other offices, nor for endorsements.

Losses settled liberally, and paid immediately on the amount being duly ascertained.

The progress of this Society in public estimation is best indicated by the amounts paid to the Government for Fire Insurance Duty, viz., for the year

1847,.....£2,042	1850,.....£7,900
1848,..... 4,845	1851,..... 9,040
1849,..... 6,460	1852,.....10,288

THE SCOTTISH PROVIDENT INSTITUTION is the only Office which combines the advantage of participation in the Whole Profits, with moderate Premiums. It is a Mutual Assurance Society, in which the Whole Profits belong to the Policy-holders; and it is free from the objection of excessive premiums, which is urged by the Proprietary Companies against other Mutual Societies.

The Premiums are as low as those of the *non-participating* scale of the Proprietary Companies. They admit of being so not only with safety, but with ample reversion of Profits to the Policy-holders—being free from the burden of payment of dividends to Shareholders.

The principle on which the profits are divided is at once safe, equitable, and favourable to good lives—the Surplus being reserved for those members who alone can have made surplus payments; in other words, for those whose Premiums, with Accumulated Interest, amount to the sums in their Policies.

This principle, while it on the one hand avoids the anomaly of giving additions to those Policies which become claims in their earlier years, secures on the other hand that there is no Member who has not been, in a pecuniary sense, a gainer by the transaction, who does not receive a share of the Profits.

On this principle bonuses as high as 54 per cent. were added to some of the older policies on the first division of profits declared at last annual meeting, detailed reports of which may be had on application.

SPECIMEN OF TABLES.

ANNUAL PREMIUM FOR ASSURANCE OF £100 AT DEATH.

Age.	Premium.	Age.	Premium.	Age.	Premium.	Age.	Premium.
26	£1 18 6	32	£2 3 5	38	£2 11 3	44	£3 3 3
27	1 19 2	33	2 4 6	39	2 12 11	45	3 5 9
28	1 19 11	34	2 5 7	40	2 14 9	46	3 8 5
29	2 0 8	35	2 6 10	41	2 16 8	47	3 11 5
30	2 1 6	36	2 8 2	42	2 18 9	48	3 14 8
31	2 2 6	37	2 9 8	43	3 0 11	49	3 18 1

It will be seen on comparison that the same premium which, at age 30, for example, is charged in the other Scottish Mutual Offices for Assurance of £1,000, will secure, in this Society, a Policy for £1,230. And it is to be borne in mind that the higher immediate Assurance in this Office does not involve the sacrifice of the member's interest in the profits, or any portion of it.

This advantageous comparison holds good, to nearly the same extent, with the *participating scale* of the Proprietary Companies.

DIVISION OF PROFITS.

EXAMPLES OF THE APPLICATION OF THE BONUS AS AT 15TH NOVEMBER, 1850.

The Profits of the Company are ascertained every Five Years, and Additions, by way of Bonus, have been made to the Policies at Four Periods, 1835, 1840, 1845, 1850.

I. ADDITIONS TO THE SUM ASSURED.

Date of Policy.	Sum in Policy.	Bonus Additions to 15th Nov., 1850.	Together.
1825	£1000	£873 0 0	£1873 0 0
1828	1000	729 0 0	1729 0 0

1837	1000	309 10 0	1309 10 0
1840	1000	203 0 0	1203 0 0
1843	1000	121 10 0	1121 10 0
1846	1000	52 10 0	1052 10 0

II. SURRENDER OF BONUS FOR VALUE IN CASH.

According to this method, if the person assured does not wish the sum in his Policy increased, he may surrender the Bonus, and take its value in cash; that is, instead of the amount being paid with the sum assured at death, such a sum will now be given as the Directors may consider equivalent to it in present value.

In the case of the Policy of £1000 opened before 15th November, 1825, for instance, as quoted above, assuming the party to have assured at the age of 35, and to be 60 last birth-day, the sum of £463. 7s. 9d. would be given for a surrender of the Bonus of £873, while the Policy will continue to receive its share of profits, at future investigations, as if the surrender had not taken place.

III. Application of the Bonus to the Extinction of Annual Contributions.

A person, aged 45, who assured in 1830 for £1000, has received Bonus Additions to the extent of £633. He pays a premium of £37. 7s. 6d., but wishes to apply the Bonus in extinction of the Annual Payment. His age being 65 last birth-day, he can redeem his future Premiums by surrendering £578. 14s. 9d. of his Bonus, leaving £54. 5s. 3d. to be paid along with the sum assured at death, and will receive further additions at each Investigation he may survive.

SELECT ASSURANCES.

THE Public are indebted to this Company for the introduction of new and important benefits in the practice of Life Assurance. A Standard Policy which has existed for Five Years is admissible to a class of "Select Assurances;" and in that class all Policies are unchallengeable on any ground of objection whatever. The Directors have also made provision, in connection with that class, for relieving the Assured, who have no prospect of going abroad, from the usual irksome restrictions as to Residence beyond the limits of Europe. Persons lending money on the security of Policies, Marriage Trustees, and, in short, all who rely on the security afforded by Life Assurance, cannot fail to appreciate these new and important advantages.

A full Report on the late Investigation of the Company's affairs and Division of Profits, can be obtained by application at the Offices or Agencies of the Company.

LIFE DEPARTMENT.

FIRST BONUS.

THE Directors have much pleasure in intimating that at the Annual Meeting of the Company, held on the 7th instant, a VESTED BONUS ADDITION was declared on the Sum Assured of all the Life Policies under the participation department of £1 *per Cent. per Annum.* The following Table of Examples exhibits the Bonus Additions made to a few of the Policies in existence at 31st December, 1852:—

Date of Policy.	Age at Entry.	Original Sum Assured.	Total Premium Paid.	Bonus Added.	Per Centage on Premium.
16 July, 1845	43	£1000	£290 0 0	£80	27 per Cent.
1 April, 1846	24	1000	141 15 0	70	49 per Cent.
26 May, 1847	18	1000	105 5 10	60	57 per Cent.
2 March, 1848	28	1000	113 15 0	50	44 per Cent.
14 Dec., 1848	47	3000	635 0 0	150	23 per Cent.
11 Oct., 1849	26	1000	88 12 10	40	45 per Cent.
10 Oct., 1850	36	1000	85 10 0	30	35 per Cent.
29 May, 1851	33	1000	51 16 8	20	38 per Cent.
28 Sept., 1852	25	1000	20 15 10	10	48 per Cent.

The above Table is conclusive evidence of the great advantage secured by parties insuring with the NORTH of ENGLAND COMPANY. The Directors would also draw attention to the fact, that the Annual Vested Bonus Additions made by this Company take effect *immediately*, and are not dependent, as is the case in many other Offices, upon the Policies having been in existence for Five, Seven, or any other number of years.

Parties wishing to Assure their Lives are respectfully requested to communicate with the Actuary, or any of the Company's Agents, who will give all needful information to enable parties to complete Life Assurances, and other transactions involving Life Contingencies.

FIRE DEPARTMENT.

INSURANCES are granted against Loss by Fire at the lowest possible rates commensurate with the position and nature of the Property Insured.

THE DIRECTORS are at all times desirous to give effect to a PROMPT and LIBERAL ADJUSTMENT of CLAIMS.

NO EXPENSE attends the TRANSFER of Policies from other Offices, and all alterations are made free of charge.

ADVANTAGES OF THIS OFFICE.

1. Entire profits belong to the Assured.
2. No lawsuits—disputes, if any, settled by arbitration.
3. Any sum may be assured, from £25 to £3,000, payable to the Member himself on attaining any fixed age, or at once to his Representatives, in case of earlier death.
4. Arrears may be paid up at any time, within twelve months, upon production of certificate of health.
5. Policies indisputable, except for palpable fraud.
6. This Society is formed entirely on the Mutual Principle, and possessing advantages resulting from being enrolled under the provisions of the Acts of Parliament relating to Friendly Societies, whereby the sums assured to the Widow, Widower, or Children of deceased Members, are payable to them free from Legacy or Probate Duty —a privilege which the Directors, by considerable effort, were the means of securing.
7. By a clause in the New Act relating to Friendly Societies, the Board is empowered to advance Loans to Members on the security of their Policies, of Five Years' standing and upwards. The mode of procedure in such cases is easy and simple, entailing no trouble or legal expense, and many Members have already availed themselves of the privilege.
8. A lower rate of mortality than in any other office in Great Britain.
9. Liberty to travel or reside in any part of Europe, in Canada, and in the northern part of the United States, without extra charges.

N.B.—The Temperance and Public sections are kept in separate classes, and will each receive their own profits.

Prospectuses, also copies of the Twelfth Annual Report, may be had at the BRANCH OFFICES, and at the CHIEF OFFICES in Edinburgh, Glasgow, Aberdeen, Manchester, Liverpool, and London.

THE Company was established in 1823, and has been incorporated by Act of Parliament, for the purpose of carrying on the business of Life Assurance in all its branches, on the most liberal and approved principles. The success which has attended the Company since its commencement, and its annually increasing prosperity, is a gratifying proof that the principles upon which it is founded are calculated to confer great benefits on Assurers.

The following are the principal advantages given by this Company:—

MUTUAL ASSURANCE, without liability.

The guarantee of a responsible body of Proprietors, either personally or otherwise, assured with the Office, affords the most undoubted security to all classes of Assurers.

NINE-TENTHS of the WHOLE PROFITS Septennially divisible among the Assured.

This is a larger proportion than can ever be divided by any simple Mutual Assurance Society.

AN INTERMEDIATE BONUS paid on Policies becoming Claims between one Investigation and another.

All the advantage of an Annual division is thus given, without its attendant evils.

THE MOST EQUITABLE PRINCIPLE OF DIVISION.

The greatest benefits are thereby bestowed upon the oldest Policies, thus securing that first-class lives shall not suffer by any undue Bonus being paid away to those who may die early.

RATES OF PREMIUM EXTREMELY MODERATE.

The Non-Participation Scale is equivalent to a present Bonus of considerable amount when compared with most other Offices.

LIFE ASSURANCE.

THE system adopted by this Company gives to the Assured every advantage Life Assurance is capable of affording, and combines the benefits of Mutual Assurance with the guarantee of a Capital of One Million, fully subscribed, besides a large accumulated Life Assurance Fund. The whole Profits, after reserving *one-tenth* for the Guarantee, are divided amongst the Assured, each Policy drawing in proportion to the sum insured, and the number of Annual Premiums paid during the period of division, previous Bonuses being reckoned additions to the Sums insured, and, as such, entitled to participate. The Profits are divided septennially, and a prospective Bonus declared in favour of such Policies as may become Claims during the septennial period, thus giving the advantage of an Annual Division without its disadvantages.

FACILITIES AND ADVANTAGES AFFORDED BY THE COMPANY IN THE LIFE DEPARTMENT.

1. Policies, on proof of age, indisputable on any ground whatever after the lapse of five years.

2. Certificates granted on application declaring Policies exempt from payment of extra premium for travelling or residing beyond the limits of Europe, or for entering into Military or Naval Service, and from the necessity of applying for License to do so, from and after the expiry of five years from their date, provided it shall be shown to the satisfaction of the Directors that the Assured have, at the time of the application, no intention or prospect of going abroad, or entering into Military or Naval Service.

3. Permission to pass and repass in time of peace from one part of Europe to another, by Sea or Land; and no extra charge for residence in British North America, the Cape, Australia, and parts of the United States, nor License required, except for the Voyage.

4. Premiums moderately rated at all ages, and so adjusted as to suit the objects and convenience of parties; and the Sums insured may be made payable to the party himself on attaining a specified age, or to his heirs or assignees at his death; or, *alternatively*, to himself on attaining the specified age, or to his heirs or assignees, if he should die earlier.

5. ONE-HALF of the Premiums may remain on credit for the first five years; or ONE-THIRD during the convenience of the Assured, interest being paid on the portion on credit.

6. Bonuses may *at any time* be commuted for a Cash Payment, or applied in reduction of future Premiums; except in cases of Policies of less than five years' standing, issued on an ascending scale of rates; and on the Credit system, if the debt be not repaid.

7. Liberal allowance made for the surrender of Policies upon which three Annual Premiums have been paid, when parties wish to discontinue them.

8. Advances made on Policies to the extent of their acquired value.

9. No Entry-Money or other charge except Policy Stamp; and Assignments of Policies registered free of charge.

10. Twenty-one days allowed for Payment of Premiums after they become due, and in event of the Party dying, payment within Twenty-one days by the Representatives held sufficient for preserving the Policy.

THE Company offers to the Public very important advantages, and affords, by its large paid-up Capital and accumulated Fund, with a Proprietary of nearly One Thousand in number, an undoubted security for all its engagements.

The Company continues to effect Fire and Life Assurances, and to grant Annuities and Endowments, on the most favourable terms.

Nearly 4,500 Life Policies have been issued.

The Constitution of this Company embraces:—

I.—A MUTUAL ASSURANCE BRANCH,

The Members of which incur no liability, while they obtain the Whole Benefit of their contributions,—the sums assured being *guaranteed*, and the business conducted by the Company for a charge of 10 per Cent. upon the Premiums without any deduction whatever.

The Bonus declared in 1851 (when the Institution completed its fifteenth year) was at the rate of £1. 7s. 6d. per £100 Assured, and a Policy for £1000, opened 30th April, 1837, is now increased to £1,202. 6s. 11d.

THE NEXT INVESTIGATION will be made at 30th April, 1856, so that Policies taken out previous to that date will be entitled to rank for a full share of the Bonuses then to be declared.

II.—A PROPRIETOR'S BRANCH,

By which Assurances may be effected for fixed sums upon terms which will bear comparison with those of any Office of Stability in the Kingdom.

Moderate Extra Rates for *Foreign* Residence, *and increased facilities afforded for going abroad.*

The Directors have recently revised and placed on a very liberal footing, as follows

THE GENERAL CONDITIONS OF ASSURANCE.

LIMITS OF RESIDENCE.

Parties assured may, without payment of any extra Premium, reside in any part of Europe, or in the possessions of Great Britain, or the United States in North America east of the 100th degree of West Longitude, but excepting, during the months of July, August, September, and October, any portion south of 36 degrees North Latitude; and the Directors will also allow residence in other parts of the world where they shall be satisfied that there is no extra risk.

PERMISSION TO VOYAGE.

Parties (not being seafaring persons by occupation) may, without extra charge, and without any special license, pass by sea in steam or decked vessels from one part of Europe to another, and in Contract Mail or First-Class Steamers to and from any part of the world.

N.B.—It will be observed that this applies solely to voyaging, and by no means to residence.

IMPORTANT MODIFICATION OF SUICIDE, &c., CLAUSE.

The clause of forfeiture in consequence of death by suicide, duelling, or the hands of justice, does not affect the interest of any party onerously in right of the Policy,

other than the party on whose life the Assurance depends; and in respect to the interests of the said last-mentioned party or his representatives, the Directors are empowered, in any case which may arise, to pay the same in full, or give such partial relief as shall seem proper to them in the circumstances of the case.

N.B—The Directors must be all Policy-holders; and, in a mutual office thus constituted, their interests are identical with those of the Assured. There is every reason, therefore, to anticipate that they will, in this matter, exercise the utmost liberality consistent with propriety.

ERRORS IN THE DECLARATION.

A Policy is not liable to forfeiture on account of mis-statement in the Declaration, except the same be fraudulent; power being reserved to the Directors to require proof of age where it has not been produced, and in the event of the age being found to be understated, to make such additional charge on this account as they may see fit.

IMPORTANT GENERAL PROTECTION.

A Policy does not become forfeited by the party on whose life the Assurance depends going beyond the limits of Residence, or engaging in Military or Naval Service, in so far as regards the interest therein of any person who, the Ordinary Directors shall be satisfied, has not wilfully omitted to obtain License, and has not concealed the circumstances, and pays, or causes to be paid, within such time as the Directors may appoint, such extra premium, if any, as they may think proper to require.

PARTIES about to insure would do well to consider the benefits which this old established Corporation gives to the Assured, both under the Mutual Plan, (but without risk,) and under the Non-Participation Plan. Under the former, about 84 per cent. of the whole Profits are divided among the Insured, while the Non-Participation Rates of the Company, compared with the Rates of the Mutual ones, give, at the age of 30, an annual return of £5. 14s. on an Insurance of £1,200; or, in other words, an Insurance of £1,475 may be effected with this Company for the same premium that an Assurance of £1,200 would cost with the Mutual Companies at that age, exclusive of 10s. per cent. of Entry-money, which this Company does not charge.

Parties insured with other Companies which do not declare their Bonuses for one or two years to come, may have these secured to them by an Insurance with this Company at a moderate rate.

THE CITY OF LONDON LIFE ASSURANCE SOCIETY, guaranteed by a subscribed Capital fully adequate to every contingency, offers all the advantages of the Mutual System without involving the Assured in its risks or liabilities, and it affords facilities in every department on principles of true economy, limited only by strict regard to security.

The Rates of Premiums are founded, not upon local, imperfect, or theoretic data, but upon the actual experience of the most important Offices in existence, and after six years the Profits are to be declared Triennially.

Amongst the peculiar advantages offered by this Society, are the following modes of Assurance:—

The MUTUAL;
The PROPRIETARY; and
The DEPOSIT or ACCUMULATIVE;

The two first embracing the most liberal and advantageous arrangements to meet the objects of parties assuring, whilst the *third*, a new feature *introduced by this Society*, unites all the advantages of *Life Assurance*, together with the convenience of a Deposit Bank, *the Assured being always at liberty to withdraw the whole or any part of the Amount deposited as Premiums*, while no Policy in this department *can become lapsed.*

SELF-PROTECTING ASSURANCES;

A new combination of Life Assurance interests, the particulars of which are hereinafter set forth.

LIFE DEPARTMENT.

THIS Company, formerly designed "THE ABERDEEN FIRE AND LIFE ASSURANCE COMPANY," and now Incorporated by Act of Parliament under the above title, prosecutes the business of Life Assurance in all its Branches.

The Non-participation, or exclusively Proprietary Department, embraces every description of Assurances on Single and Joint Lives and Survivorships, on the lowest terms consistent with perfect security.

The Participation scheme, which was begun in 1840, has been attended with great success, as indicated by the Bonuses added to Assurances of this class, viewed in connection with the moderate rates of premium. These are, in many cases, so much below those usually charged, as to be equivalent to Bonuses of very considerable amount. Parties joining this scheme incur no responsibility of Mutual Assurance, the original sums in the Policies and Bonuses, when declared, being guaranteed by the Company.

Annuities are sold on favourable terms.

Prospectuses, containing Tables of Rates and Forms of Proposal, with every information, may be had on application.

FIRE INSURANCE,

At the reduced Premium of 1s. 6d. per cent., and upwards. Policies with other offices may be transferred free of expense.

THE Rates of Premium are those adopted by the principal Life Offices; the Rate without Bonus is lower than that of most other Offices.

The Bonuses are added to the Policies, or applied to the reduction of Premiums.

Policies issued by this Office are purchased at their full value; or Loans may be obtained upon them after they have been in existence for five years.

If a party neglect to pay for the renewal of his Policy, he may repair the omission any time within twelve months, upon proof of good health.

The Profits (subject to a trifling deduction) are divided among the Insured. The plan upon which they are divided gives to each party insured a share proportionate to the amount of the Premiums he has contributed.

In addition to this advantage, which is now offered to the Policy-holders in this Office, an annual addition or bonus is made to each Policy in anticipation of the Quinquennial Division of Profits.

At the last annual investigation, reported in May, 1852, the bonuses declared to the Assured were, the option of a return of 15 per cent. on their Premiums in cash, or a reversionary addition to the original sum assured by each Policy, varying from 22 to 52 per cent.

LIFE.

In the MUTUAL BRANCH of this Institution complete security is combined with the highest attainable economy. The Policy-holders are fully protected from all Loss or Liability by the ample subscribed Capital of One Million, and are entitled to FOUR-FIFTHS of the Profits,—applied either in reduction of the future Premiums, or in addition to the sums assured, at their option. The SECOND DIVISION of PROFITS will be declared in June, 1853, and all Policy-holders, after payment of five annual premiums, will be entitled to participate.

In the PROPRIETARY BRANCH assurances are granted at the lowest rates of Premium compatible with security to the establishment. Such assurances may be effected

in a great variety of ways, to suit the circumstances and convenience of the assured. Among others, that in which the sum assured becomes payable at SIXTY YEARS of AGE, or at death, if happening previously, is particularly deserving of attention.

THIS SOCIETY grants every variety of Policies on any number of Lives, and to any amount, for which the payments can be made by such arrangements as may be most convenient.

BY A VALUABLE NEW PRINCIPLE, originated by this Office, Policies effected in it do NOT *become* VOID, *through the temporary inability of its Assurers to pay a premium; as permission is given, upon application, to suspend the payment, at interest, according to the conditions detailed in the Society's Prospectus.*

The rates of Endowments granted to young lives and of Annuities to old lives are liberal.

CREDITORS and BORROWERS can insure their Debts with special advantages in this Society.

PARTNERS IN FIRMS can increase their available Capital by the aid of a special Life-Assurance Policy.

BONUS declared at the first Division of Profits, 31st December, 1849.

A VALUATION of the Society's Assets and Liabilities was made at the close of its first financial period, on the 31st December, 1849; and, after setting aside an ample reserve fund, a Bonus was allotted to the Assured out of their share in three-fourths of the net profits. The result is highly satisfactory; and, when the moderate rates of premium charged by this Society are compared with the very high payments *usually* required for the same amount of Policy, the Bonus here allotted will be found to be very advantageous.

The following Specimens will serve as illustrations of this point:—

THE many advantages offered under the distinctive Branches of the UNITED DEPOSIT ASSURANCE COMPANY, are well worthy the consideration of the public; and among these, under the head,

DEPOSIT ASSURANCE,

a ready and safe Investment may be made for spare or surplus income, every sum lodged with the Company at once securing a large Assurance value in event of death; while the money so lodged may at all times be made available for any unexpected emergency, without diminishing in the slightest degree the amount of Assurance in the Policy.

A Fund or Provision for Children may also be made, by securing to them the payment of a given sum on attaining a given age. Under the Company's other Branch, for

ACCUMULATIVE ASSURANCE,

the Assured has the power of adapting the Premium payable and amount Assured to his present circumstances, and has it in his power to increase the amount Assured from time to time, without the necessity of opening a new Policy.

The Assured has, at the same time, perfect freedom from the risk of forfeiture, under the privilege of diminishing at any time the amount of his Insurance, and of again increasing the same when desired.

As an inducement to young lives to Assure, the Company are prepared to grant Assurances from £10 upwards.

Every information will be obtained, either by letter or personal application, at the Head Office, Edinburgh; or to

LIFE DEPARTMENT.

THE peculiar and distinctive features of this Society consist—In allowing no Member, when unable to continue his payments, to lose the benefit of the sums which he has paid, and arrangement may be made to secure a Policy free from any future payments.

By appropriating one-tenth of the profits of the Society to a Fund for the purpose of endowing Schools, in which the Holders of Policies for £300 and upwards will be allowed to nominate Scholars, thereby securing a direct interest and privilege not to be found in any other existing institution.

By making every Policy *absolutely Indisputable* under any circumstances, thereby rendering them negotiable instruments as security, and entailing no trouble or inconvenience on the survivors.

By making every Policy PAYABLE TO THE HOLDER by endorsement, by which means the expense and trouble of an Assignment are avoided. By this means a Policy may be negotiated with the same facility as a Bill of Exchange.

The Society is established on the just principle of Mutual Life Assurance, returning to the Assured, by way of Bonus, the surplus above the cost of the Assurance.

It embodies all the improvements of other Offices.

The Funds of the Society are employed in granting Loans to Members upon approved Security.

The Payment of the Premiums is arranged to suit the convenience of all classes of Assurers. One-half the premiums for the first five years may remain unpaid.

The Assured are protected by a Guarantee Fund of £50,000, in addition to the Annual Income and Reserved Fund.

The Directors and Auditors are chosen by the Members.

LIFE DEPARTMENT.

THE Business of this Office embraces *every* mode of Life Assurance, *and the Rates of Premium will be found essentially moderate.*

LIVES DISEASED, *or having a tendency to disease*, may be assured with this Office on payment of a proportionate *extra* Premium, which the Office will reduce or cancel on the restoration of the party to good health.

ONE-HALF ONLY OF THE ANNUAL PREMIUM may be paid during the first five years of Whole Life Policies, the other moiety of the Premium remaining a debt on the Assurance.

To Policies effected in the Mutual Assurance Branch, a Bonus of THIRTY-TWO PER CENT. on the Premiums which had then been paid was declared on 30th September, 1849, for the seven years preceding; and similar additions will be subsequently apportioned to all Policies effected with a right to participation in Profits. A Policy becoming a claim betwixt two periods of division, is entitled to share in profits according to the preceding participation, and the number of years since elapsed.

THE utmost security is afforded to the Public by the very large amount of the Subscribed Capital, by the highly responsible character of the Proprietary, and by the Income of the Society itself, which now, from Premiums alone, exceeds £20,000 per annum.

The Tariffs adopted by other Companies are in a great measure disregarded by this Office, the Directors preferring to act without combination, as they are thus left free to demand such Premiums only as they think reasonably sufficient to meet the risk incurred.

Farming Stock insured at 3s. per cent. without the average clause.

A Return of 50 per cent. of the Profits will be made periodically to the Policy-Holders of three years' standing.

Losses promptly and liberally met.

No Charge made for Policies.

EMPORIUM OF THE FINE ARTS.

BY SPECIAL APPOINTMENT.

GIACOMMO NANNETTI,

STATUARY & ARTIFICIAL STONE MANUFACTURER AND MODELLER,

Of 6 Great Brunswick Street, Dublin,

WOULD respectfully announce to the Nobility, Gentry, Clergy, and Public of Scotland, his having opened a Branch Establishment in those large Premises, which he has elegantly fitted up for the purpose, at

241 SAUCHIEHALL STREET, GLASGOW,

Where he has displayed, for Sale and Inspection, a choice and splendid Collection of Statuary, forming a valuable and rare assemblage, in Plaster and Artificial Stone, of Groups from the Egyptian, Grecian, Roman, Gothic, Flemish, English, and Native schools, consisting of Colossal, Natural, Three-Quarter, and Half-Size Statues, Groups, Busts, Quadrupeds, Bassi and Alti-Relievi, Vases, Pedestals, Royal Arms from two feet to twelve feet, Jets d'Eau, or Fountains, &c. (for which two Medals were obtained from the Royal Dublin Society), and other miscellaneous subjects. The Artificial Stone manufactured by G. N. is well adapted for the enrichment of the outside work of Buildings, and of Churches, Galleries, Dwellings, Gardens, and Pleasure Grounds; and, from fifteen years' experience of its rare qualities, and from the fact of it becoming harder and more dense from lengthened exposure to the atmosphere, he can confidently recommend it to the attention of Engineers and Architects.—Specimens may be seen at the Gallery.

G. N. having, with considerable difficulty, and at great expense, imported some of the most eminent Specimens of Ancient and Modern Sculpture, relies with confidence on that patronage which may enable him successfully to establish this branch of the Fine Arts in Glasgow, and, from time to time, to import further the richest Specimens of Art, as they appear, from the Studios of both Foreign and British Artists.

Reference can be made (if wished) to the Nobility and Gentry of Ireland, for whom G. N. has executed Works.

MODELLING, in all its Departments, conducted by the Proprietor and his Assistants.

Plaster of Paris, of Best and Second Quality, and Patent Portland Cement.

CASTS TAKEN, from the Living and the Dead.

Goods properly Packed for all parts of the Globe.—Inspection respectfully solicited.

A. S. YOUNG & SON,

SURGEON-DENTISTS,

185 BUCHANAN STREET,

GLASGOW,

DESIRE to intimate that they have reserved to *themselves* the EXCLUSIVE USE IN GLASGOW of JAMES A. YOUNG'S **PATENT FORCEPS**, which, from the principles secured in their construction, will remove ANY *Tooth or Root*, HOWEVER FAR DECAYED, *and* ALWAYS *with the least possible amount of pain.* In most cases the Teeth slip into the Instruments, and are removed with little effort, and in many instances they literally *jump* out of the mouth! But when the Tooth or Root is not inclined to slip out, the same Instrument secures a firm hold, so that the Tooth *must* come out, *and with the least possible force—the action being more by* INSINUATION *than* FORCE.

A. S. YOUNG & SON, in addition to the other branches of their Profession, devote particular attention to *every kind* of deficiency of the Hard and Soft Palates,—their appliances performing, to a great extent, the functions of the natural structures.

FUMIGATING, HOT AIR, AND VAPOUR BATHS,

AS ADMINISTERED UNDER THE ADVICE OF THE MOST EMINENT MEDICAL AUTHORITIES, UNDER MEDICAL SUPERINTENDENCE, AT

109 MAIN STREET, ANDERSTON, GLASGOW.

(*West from the Gushet House.*)

THESE BATHS are similar in construction to those used in the Hospitals of France and other continental countries, and to those celebrated Baths at the private residence of that eminent physician, Jonan. Green, Esq., M.D., Marlborough Street, London, and used by him for upwards of 30 years as a remedy of unknown value in hundreds of cases, some of them medical gentlemen themselves, who had been treated by the most eminent of the Profession in London without success, and with whom Dr. Green succeeded without giving a particle of medicine internally. Certain modifications and improvements have been made, the result of several years' practical experience in Glasgow and England, the most potent, safe, and agreeable for curative purposes; as yet they are not sufficiently well known to be duly appreciated in this country, but happily, for a large class of sufferers, they are gradually forcing themselves upon the attention, not only of the highest class of medical practitioners, but also of the public in general.

Separate Baths set apart for particular Diseases,

Superintended by MR. JACK *himself and Assistants.*

Medicines of any degree of strength may be administered in the form most favourable for influencing the whole system—viz., the Gaseous form—without the slightest inconvenience or unpleasantness to the patient, the head not being included in the Bath. There is no fear of taking cold; even the patients themselves, after their first bath, lose all such fear—so much heat has been absorbed and retained in the system as to dispel all such apprehension. No occasion to go to bed, nor confinement to the room or house, even after the most powerfully medicated Bath: it is not at all necessary—my own patients not doing so (except in particular cases). The Vapour Baths are preservatives of health, as they produce the good effects of exercise—viz., increased and equal circulation and perspiration without fatigue, and may be taken by the most delicate person, and children, being always tonic in effect when properly administered. Persons, from their use, are much less liable to take cold.

Mr. JACK never interferes in the cases of patients coming from Medical Gentlemen, and is at home daily from 9 a.m. to 4 p.m., and 7 till 9 evening.—A Bath can be had from 1s. to 2s. 6d.

Much might be added, but it is unnecessary, as the most eminent medical men send their patients to him for these Baths, and have visited them themselves. Mr. JACK is aware that some members of the profession are inclined to doubt the remedial powers here set forth; he therefore courts their investigation and testing of the means, lest they might think he has unwarrantably extolled them.

Baths in a few minutes' notice daily from Nine a.m. till Ten p.m.

A FEMALE ATTENDANT FOR LADIES.

109 MAIN STREET, ANDERSTON.

The opinions of the Medical Press of London and Edinburgh, and the Report of the Committee of the Faculty of Physic of Paris, signed by such names as Leroux, Dubois, Dupuytren, Richerand, &c., Barons and Professors of Physic, Paris, upon the utility of these Baths, may be seen at the Establishment; also, a long list of cases cured of inveterate diseases principally by them.

Mr. JACK purposes still further to enlarge his Establishment, owing to the number of patients applying, sent by Medical Gentlemen in Glasgow, and elsewhere.

Baths administered according to the suggestion of the Professional adviser of the Patient, or at personal option.

Cold and Tepid Shower Baths. Tepid and Cold Douche Baths—an effectual cure for local pains—and, in conjunction with the Vapour Bath, the most active, effectual, and agreeable of all baths.

The Vapour Bath, as a Therapeutic agent, is too important to be trusted in any other hands than Medical, and, from personal observations, we can testify that Mr. JACK's Establishment is by far the most complete in Glasgow; and as it is carefully superintended by himself, it deserves, and possesses to a great extent, the patronage of the Profession, and the confidence of the Public.—*Glasgow Sentinel*, March, 1853.

TO CIVIL ENGINEERS AND LAND-SURVEYORS.

ALEXANDER DICK,

Land Surveying Chain-Maker, and Plain and Fancy Wire-Worker.

10 Buchanan Buildings, 105 Stockwell Street, Glasgow,

TAKES this opportunity again to return his unfeigned thanks to those Gentlemen who, for nearly thirty years, have honoured him with their kind favours, and hopes, that by prompt attention to their orders, and, as heretofore, making nothing but what he puts his name on, he can warrant still a continuance of their liberal patronage.

A. D. would earnestly solicit the attention of those gentlemen, who may not, as yet, have given his Chains a trial, to do so; being confident, from the flattering testimonials received from eminent practical gentlemen, in different parts of the three kingdoms, of their superiority, and likewise being made of the very best Charcoal Springwire (being nearly as hard as steel), he feels confident a trial is only necessary to prove them second to none now in use; and to prevent counterfeit, '*Alexander Dick, Chain-maker, Glasgow*,' is on the middle teller or counter of all his Chains, warranted. The following is an abridged list of his Prices.

Foot Link 100 Feet Chains.

100 feet long, 100 round-eyed links, made of No. 8 wire, 200 round rings, and made of No. 7 wire, with superior improved strong wire handles, with brass tops and copper swivels, 11s. 6d. each; and with a set of No. 5 link brass counters, 12s. 6d. each.

100 feet long, 100 links with long eyes and filed joints, 300 oval rings, and both made of No. 7 wire, with superior improved strong wire handles, with brass tops and copper swivels, 18s. each. With a set of No. 5 link brass counters, 19s. each.

A Chain of the same kind, but links and rings made of No. 8 wire, 16s. each. With a set of No. 5 link brass counters, 17s. each.

A. D. would particularly recommend the Chains with long-eyed links, filed joints, and 300 oval rings, as being the best he makes; warrants them not to crank, twist up, nor so apt to stretch as those with round-eyed links and round rings, being made in a superior style.

Scotch Surveying Chains, with or without the Fractions, made only to Order.

Imperial or Link Surveying Chains.

66 feet long, 100 round-eyed links, made of No. 8 wire, 200 round rings, and made of No. 7 wire, with superior improved strong wire handles, with brass tops and copper swivels, 8s. 6d. each.

66 feet long, 100 links, with long eyes and filed joints, 300 oval rings, and both made of No. 7 wire, with superior improved strong wire handles, with brass tops and copper swivels, 16s. each.

A Chain of the same kind, but links and rings made of No. 8 wire, 14s. each.

Imperial Link Mine Surveying Chains, with neat strong brass handles and copper swivels, with 10 links of brass wire at each handle, and also at 50 and 60 if required, made only to Order.

Surveying Chains, made of cast steel wire to any length, size of wire, or pattern, only to Order.

Large and small ring Swails, Planting and Holing Chains for the East and West Indies, made to Order.

Copper, Brass, Iron, and Steel Wire, oval link Clock and Pitch Chain, of all sizes of link or wire, made on the shortest notice.

Plain and Ornamental Wire Fence for Pleasure Grounds, and every other Article in the Line equally Cheap.

COFFEE-ROASTING, GRINDING, AND SUGAR-POUNDING WORKS,

29 M'PHERSON STREET (*off HIGH STREET*), GLASGOW.

The only Steam-power Roasting Establishment connected with the Trade in the City.

D. MINTO begs leave to return thanks to the Grocers and Druggists of this Town and Vicinity for past favours.

He also begs leave to intimate, that in connection with his Coffee-Roasting, and Coffee and Spice-Grinding Works, he has fitted up an extensive Sugar-Pounding Machine, offering to the Confectioners, and Trade in general, an advantageous opportunity of having their Sugar Pounded by Steam-power, far surpassing anything ever yet offered to the Trade.

D. M. trusts that, by personal attention, along with twenty-four years' experience, he will be enabled to give entire satisfaction to those who may favour him with their Orders.

P.S.—*All orders punctually attended to, and delivered by his Van at the proper time.*

— - —

The COFFEE PLANT, "*Coffea Arabica*," of Linnæus, is an evergreen, and, as may be inferred from its scientific name, is a native of Arabia. It produces a pulpy berry about the size of a small cherry, enclosing two seeds, which, separated from their pulpy envelope, form the well-known Coffee Beans of commerce. It may be remarked, as a singular fact, in reference to Coffee, that while all of the vegetable kingdom that have been taken under the care of man have been improved, it alone asserts its independence; for, although cultivation may greatly enlarge the crop, it as certainly, at the same time, deteriorates the flavour, and the produce of the wild plant still maintains the highest figure in the market. It is well known that Coffee would be of no real value were it not properly roasted—a process which, as it requires much skill, is only to be acquired by experience. How man became acquainted with the fact, that the tasteless seeds of a berry, when roasted, ground, and infused, would form a grateful beverage, will most probably remain a secret to the end of time. That the development of its useful properties depends wholly upon the roasting, is evident. About two hundred years ago, Coffee was first introduced into England, since which its consumption has steadily increased, and deservedly so, when its medicinal properties are considered, it having been found useful in headaches arising from a particular state of the stomach, and much benefit having been derived from its exhibition in cases of Asthma.

A French scientific gentleman, who has directed his attention to this subject, says:—"I have found that Coffee is better roasted, and more of the aroma retained, when a double cylinder is used—the air between the interior and exterior cylinders acting as a non-conductor of heat. It is done more uniformly, while the essential oil on which the aroma depends is less liable to be dispersed than when exposed to the fierce heat of a fire in a single cylinder."

In the double rotatory globular method of roasting, as practised at Mr. Minto's Works, 29 M'Pherson Street, off High Street, Glasgow, the above principle is acted upon, inasmuch as the globe (which has superseded the cylinder since the application of steam-power to this branch) revolves in a medium of heated air, which, experience has shown, best prevents the dispersion of the essential oil, or aroma.

HEALTHFUL HOMES, with avoidance of the inconvenience and expense of removal to Families during Painting. Disease and premature death amongst Painters prevented.

† SUPERIORITY OF WHITE ZINC PAINT FOR SHIPPING.

MARINE PAINT.—In a report recently published in New York, addressed to the President and Directors of the New Jersey Zinc Company, it is averred that "late experiments made at the U. S. Navy Yard at Gosport, have established, by the most conclusive tests, the decided superiority of the White Oxide of Zinc as a Marine Paint, over all others subject to the same test, namely:—White Lead, Red Lead, Marine Paint, manufactured at Philadelphia, Verdigris, and Coal Tar.—These experiments prove that timber covered with two coats of White Zinc is neither attacked by the worm, nor do barnacles attach to it when immersed in salt water; whilst all other paints tried, offer comparatively no protection against these two great evils."—(*Ex* BUILDER, 19*th March.*)

FURNISHING IRONMONGERS.

OUR NEW STOCK of FURNISHING IRONMONGERY will, on inspection, be found replete with everything that is at once chaste, elegant, and useful in this important Branch of Household Furniture.

In our selections we have been unusually fortunate in harmoniously combining the useful with the ornamental, while, at the same time, the workmanship and style have invariably been executed with a degree of taste and skill possessed only by Artists of the first rank.

We have studied to introduce into our GASALIER and LAMP Collection many designs, the FINESSE and VERTU of which have been highly appreciated; and, notwithstanding the unprecedented rise in all Metals, and also in labour, we are still enabled, by our arrangements with the manufacturers, to continue the same economical scale of prices as hitherto.

MAIR'S Stock is made at leisure, of the same quality of Leather as Bespoke Boots and Shoes, and by the same First-class Cutters and Workmen, but very much Cheaper—because when dozens of Pairs are cut at once, there is a great saving in the Leather, Linings, and Trimmings, and also in the time of the Workmen—so that a superior Boot or Shoe can be sold ready-made Cheaper than can possibly be made to order at the same price.

Besides the saving of money, there is the saving of time and trouble to the Buyer, who, if he orders a pair of Boots or Shoes to be made for him, must call to instruct, return to try on, and very often send or call back for alterations—whereas, if he buys a ready-made pair of Boots or Shoes, he has only to try one or two pairs on, and he is fitted with an article the Fashion of the day; and he sees at once the quality, style, and price of Boots or Shoes, at

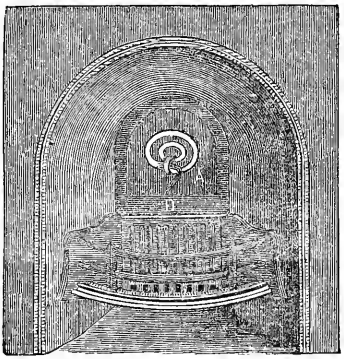
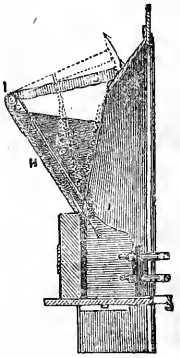
JOHN FINLAY,

FURNISHING IRONMONGER & BRASSFOUNDER,

PATENTEE AND MANUFACTURER OF THE PATENT

RADIATING GRATE AND AIR-SLIDING LUSTRE.





Extract from "PRACTICAL MECHANIC'S JOURNAL," *June*, 1853.

"MR. FINLAY, whose sound practice in many improvements connected with lighting, heating, and ventilation, have frequently found a place in our pages, has here produced a most effective plan for the general improvement of domestic fire-grates. The special objects which he has had in view in the present instance, are to be thus summed up:—1st, Efficiency of draught; 2d, Superior radiation of heat: 3d, The accurate and easy adjustment of the regulating details, for modifying the draught and the combustion of fuel, and the prevention of smoke.

"A most important effect of this arrangement of grate is, that, by the agency of the back draught, the great mass of the smoke is drawn through the incandescent fuel in the grate, in passing to the small escape door. In other words, instead of the smoke passing up in all directions over the top of the fire, it is actually drawn off horizontally, or nearly so, and must, of necessity, be exposed to a large burning fuel surface before it leaves the grate. Thus the smoke cannot play about the fire, and be displayed into the room by chance diffusive atmospheric currents; indeed, it is supposed that at least one-third more smoke is actually consumed in this grate than in the common one."

A Large and Varied Stock of the Patent Grate to be seen at JOHN FINLAY'S SHOW-ROOMS, where, also, they may be seen in use.

By means of the PATENT INDUCTION VALVES, suitable for Dwelling-houses, a wholesome supply and change of air may be secured to every house, which is of much importance to health, especially in Sitting-rooms, Nurseries, &c.

His large Stock of HOUSE IRONMONGERY will be found to be highly varied, and replete with the most elegant and new designs, and which, for richness and cheapness, is not exceeded by any in the kingdom. J. F. respectfully invites the inspection of those requiring such Goods.

KITCHEN RANGES, with or without BOILERS, and BATH HEATING APPARATUS.

BATHS—Plunge, Shower, Sitting, &c., in great variety, in Zinc, Japan, or Enamel.

TRAVELLING BOXES, DEED BOXES, and every description of TIN and JAPAN WARE.

Heating by STEAM, HOT WATER, or STOVES, on the most Scientific Principles.

46 Buchanan Street, Glasgow.

From its extent, the Directors are enabled to accommodate themselves both to the taste and circumstances of every Purchaser, while, at the same time, a Nursery Garden, containing every variety of Plant suitable to the climate, is kept for supplying Purchasers with Flowers and Shrubs for the ornament of their burial-places.

Every encouragement is given to those desiring to erect Monuments. A handsome Chapel and Gateway are erected.

THE BRITISH AND AMERICAN
MEDICO-BOTANIC DEPOT,
270 BUCHANAN STREET, GLASGOW,

WAS opened in 1848 by Mr. RICHARD JOHNSON, and was then the only House of this kind of any importance in Scotland. The encouragement and support accorded by the Public of Glasgow and vicinity to Mr. J. were such as to realize his most sanguine hopes, and to deserve his sincerest thanks. To the excellence and efficiency of the Botanic Treatment of Disease, and to the skill of Mr. JOHNSON, hundreds of grateful hearts are ready to testify. MEDICAL BOTANY is a vigorous young giant in the cause of Medical Science, whose growth and beauty is destined to overshadow the world, and to fold within its saving arms the human race. Its progress, as regards the growing extent of its usefulness, is unparalleled by the history of any system of Medicine, ancient or modern. In no country are its benefits more needed than in Scotland, where Mercury, Bleeding, and Blistering are the chief remedies employed by the Faculty.

The present Proprietor of the MEDICO-BOTANIC DEPOT, Dr. W. DALE, has laboured many years to extend the benefits of this true and natural system of Medicine, and his success has been unsurpassed.

Since the above Establishment passed into his hands, some improvements have been effected. Vapour and Shower Baths for the safety, comfort, and convenience of his Patients have been erected, the superior construction and arrangement of which are highly appreciated by those who understand the enjoyment and luxury of such Baths.

In order to conserve in perfection the properties of the British Herbs, Dr. DALE has invented Machinery for closely compressing them into packages of various sizes, in which state the air is excluded from them, and their properties preserved in integrity from one season to another.

A List of the Herbs, Roots, Books, &c., with their Properties and Uses explained, may be had, *gratis*, on application as above, or forwarded through Post on receipt of Three Postage Stamps.

Dr. W. DALE may be Consulted from 9 A.M. to 2 P.M., and from 5 to 8 P.M., as above, and at any other hour at his Residence,

IMPROVED PATENT AND BOX MANGLES,

the superior quality of which, in regard to construction, well-seasoned materials, and unquestionable workmanship, amply warrant him in charging a somewhat higher price than is charged for the ordinary "job" Mangles.

ROBERT GREIG, confident in the superiority of his materials and workmanship, guarantees his Mangles for one year.

WILLIAM JOHNSTON,

METAL BROKER, BIRMIMGHAM FACTOR, AND AGENT FOR EVERY DESCRIPTION

OF

GAS-LUSTRE MATERIALS, PLUMBERS' AND BRASSFOUNDERS' FURNISHINGS,

9 MITCHELL STREET.

TUBES.

Every description of Tubes for Locomotive and Marine Boilers, Gas, Steam, &c, in Brass, Copper, Tin, and Composition; Welded Iron Tube with Couplers, Knees, &c.; Open Joint Tube for Beading; Patent Cased Tube; Tubes specially made for Beer Engines and Pump Chambers; Tube Drawn Tight upon Iron for Piston Rods, &c.

METALS.

Regulus of Antimony; Bismuth; German Spelter; Copper; Tin; Rolled and Sheet Brass; Spelter Solder; Hard Rolled Copper for Block-Cutters; Spring Brass; Copper and Brass Wires; Engraver's Brass, for Window and Door Plates, &c.

BLACK-LEAD CRUCIBLES

For Brassfounders.—The Foreign Crucibles are imported from the first German makers. They have been tested for some years, and have, with few exceptions, been found to stand remarkably well. Mr. Johnston is in regular communication with the makers in Germany, giving them hints suggested by practical and experienced Brassfounders here, which has led to considerable improvements in the quality of the Crucibles. When size is taken into account, they will be found one-half cheaper than those made in Scotland.

GAS-LAMP MATERIALS.

ROUGH-STAMPED BRASS WORK, in Vases, Spouts, Husks, Knobs, Balance Weights; 2, 3, 4, and 6 Light Bodies for Lamps, &c.; Chain Links; Rollers for Chain (of an improved description, burnished and lacquered); Brass Washers of every size; Bohemian Black-Lead for bronze work; Dipping Aqua Fortis; Marine Acid; English Lacquer of all shades; Gas Burners (Milne's and Common); Varnished Flexible Gas Tubes; Balance Weight, Cord, and Chain, &c., &c.

In Lamp Materials, particularly the ornamental portion of them, no single Manufacturer produces the variety that is now required by any Lampmaker. Some Makers are cheaper in certain articles, and have more suitable patterns in others. The advantage of doing this business through an Agent who represents the WHOLE *Trade will consequently be apparent, particularly where the Agent is in a position to supply the Consumer on the same terms as if he were ordering from the different Makers direct.*

ORNAMENTAL GLASS.

BOHEMIAN.—Spangles, Prisms, Rosettes, Points, Star-pans, and other requisites for making up Crystal Chandeliers and Girandoles. Fancy Ornamental Vases, Arms, Pillars, &c., for Gas Lustres, in all Colours and Styles of Ornamentation for which Bohemia is so celebrated.

ENGLISH.—Opal, Blue, Green, and Ruby Glass, in Arms, Plain and Fluted; Vases, Lilies, Beer Pump Handles, Lamp Bottom Dishes, &c., Plain and Gilt, or Painted; Opal Tubes, &c. (A common English Opal, slightly superior to the Glasgow made sort, may be had when quantity is required, at 3d. to 9d. per lb., under the best English Opal; but this inferior quantity is not usually kept in Stock.)

GAS MOONS OR SHADES.—Plain, Obscured, Cut, or Painted to any Design. The annual Sheet Patterns may be had on application. As Mr. Johnston keeps workmen for Cutting and Painting Moons and other kinds of Glass, any pattern can be supplied to order on the shortest notice.

SILVERED GLASS REFLECTORS.

The Brilliant Reflectors of the Patent Glass Silvering Co., are applicable to Signal Lights, Shops, Railway and Private Carriages, &c.; they surpass anything hitherto accomplished; their durability, united with their moderate price, renders them the cheapest, as well as the best. Common-plated Reflectors tarnish with the gas, and soon get useless by frequent polishing. The Glass Reflectors do not tarnish, and consequently require no cleaning. Adopted by the Admiralty for the use of her Majesty's Navy, the Great Western, Great Northern, Eastern Counties, South-Eastern, and other Railway Companies.

PLUMBERS' MATERIALS.

CAST-IRON GOODS.—Rain-water Pipes, Cups, Shoes, Swan-necks, Runs, Angles, Stop-ends, Jaw-boxes, Boilers, Water-closet Metal, &c. Superior Brass and Iron-wire Chain; Tin'd Copper Cistern Balls, 4 to 10 inches; Closet Pans, in Brass and Copper. Also, *Johnston's Anti-corrosive Pan*, made of a hardened alloy of Copper, which enables it to resist, to a greater extent, the action of the acid; Brass Counter, Cabin, and Wash-hand Basins, burnished inside, machine-made, and very superior to the common hand-made Basins hitherto in use.—*The Plumbers' List of Prices may be had by the Trade on application.*

In submitting a List of the leading Articles included in his Agencies, Mr. JOHNSTON invites attention to the fact, that he is the only party in Scotland who keeps a Stock of ALL THE ARTICLES required by LAMPMAKERS and BRASSFOUNDERS. He is the EXCLUSIVE AGENT here for most of the New Articles in Struck-work, Lamp Ornaments, &c.; while he, at the same time, supplies the Manufactures of the older houses in the trade, and, in every instance, at the same prices as charged by the makers.

The other advantages he has been enabled to offer, are:—The Trade can thus procure, through one channel, the productions of different Manufacturers—Save the expensive charges for carriage of small lots of Goods from England—Get conveniently and promptly all that is required—Avoid the necessity of keeping a large assortment of Goods, and consequently lessen the risk of loss on bad Stock.

BEGS most respectfully to inform the Gentry and Public of Glasgow, and Scotland in general, that having had Ten Years' practical experience in London, and Six Years with S. WOOLFIELD of Glasgow, he has now Commenced Business for himself, when he hopes, by strict attention, with small profits, to gain a share of their patronage.

Likewise, the much-admired RACING GAME. The increasing demand for this most Popular Game is strikingly evinced by its rapidly extended Sale throughout England and all parts of the Continent. GEORGE AUSTIN begs to inform the Gentry and Public of Glasgow, that the great demand for this most exciting of all Games has caused a great monopoly, a condition seldom favourable to either excellence or cheapness; and as GEORGE AUSTIN has only a Manufactory, and not any large Retail Establishment—which unavoidably must demand a large profit—he begs to state with confidence, that he can Manufacture and Supply the Public with the RACING GAME, and all kinds of FANCY CABINET WORK, fully Thirty per Cent. below any other house in Scotland. All Goods made on the Premises, and Warranted.

Writing-Desks, Dressing-Cases, Work-Boxes, Work-Tables, and all kinds of Fancy Cabinet Work, Repaired and Re-lined.
